

Concrete Spacer Blocks

Description

Concrete Spacer Blocks provide a comprehensive range of sizes giving single/double and triple cover spacing. Used to ensure specified concrete cover is achieved during concrete placement.

Advantages

- ▶ Consistent strength.
- ▶ Excellent bond with concrete.
- ▶ Quick and easy installation.
- ▶ Fire resistant.

Typical data

- ▶ Appearance - Grey solid block
- ▶ Flash point - Nil
- ▶ Voc content - Nil
- ▶ Dimensional Tolerance <5%.
- ▶ Compressive Strength >40N/mm²
- ▶ Useage - 4 per m²

Storage

Store in supplied sacks off ground e.g Pallets.
Avoid frost and contact with acids.

Health & Safety

- ▶ Avoid contact with skin.
- ▶ Wear protective clothing and gloves
- ▶ If cutting/sawing wear eye protection.
- ▶ Refer to Material Safety Data Sheet.

Spacer Type	Size(mm)	Bag Qty	Bags Per Pallet	Spacers Per Pallet	Approx Wieght Per Pallet
Single Cover	25	500	50	25,000	1000kg
	30	250	50	12,500	800kg
	35	250	50	12,500	850kg
	40	250	50	12,500	1,125kg
	50	200	50	1,000	1,200kg
Double Cover	25/30	500	50	25,000	1000kg
	30/40	250	60	15,000	?kg
	35/45	250	50	12,500	?kg
	40/50	200	50	10,000	1,175kg
	60/75	50	50	2,500	675kg
Triple Cover	35/40/50	200	50	10,000	1,175kg
Mesh Men	40/50	100	50	5000	1000kg
